Approved: July 6, 2009
The copyright laws of the United States make it illegal for anyone to duplicate copyrighted materials without permission. Severe penalties are provided for unauthorized copying of all materials covered by the act unless the copying falls within the bounds of the "fair use" doctrine.

Any duplication of copyrighted materials by district employees must be done with permission of the copyright holder or within the bounds of "fair use".

The legal or insurance protection of the district shall not be extended to school employees who violate any provisions of the copyright laws.

**Copyright Regulations and “fair use” rules for educators.**

The following must be published in all staff handbooks.

In accordance with school board policy ECH, the following regulations will be observed to comply with the copyright laws of the United States.

Under the "fair use" doctrine, unauthorized reproduction of copyrighted materials is permissible for such purposes as criticism, comment, news reporting, teaching, scholarship or research. If duplicating or altering a product is to fall within the bounds of fair use, these four standards must be met for any of the purposes:

**The Purpose and Character of the Use**

The use must be for such purposes as teaching or scholarship and must be nonprofit. Fair use would probably allow teachers acting on their own to copy small portions of work for the classroom but would not allow a school system or an institution to do so.
The Nature of the Copyrighted Work

Copying portions of a news article may fall under fair use but not copying from a workbook designed for a course of study.

The Amount and Substantiality of the Portion Used

Copying the whole of a work cannot be considered fair use; copying a small portion may be. At the same time, however, extracting a short sequence from a 16mm film may be far different from a short excerpt from a textbook, because two or three minutes out of a 20-minute film might be the very essence of that production and thus outside fair use. Under normal circumstances, extracting small amounts out of an entire work would be fair use, but a quantitative test alone does not suffice.

The Effect of the Use Upon the Potential Market for or Value of the Copyrighted Work

If resulting economic loss to the copyright holder can be shown, even making a single copy of certain materials is an infringement, and making multiple copies can result in greater penalties.

Prohibited Practice

No one may make multiple copies of a work for classroom use if it has already been copied for another class in the same institution; make multiple copies of a short poem, article, story, or essay from the same author more than once in a class term or make multiple copies from the same collective work or periodical issue more than three times a term; make multiple copies of works more than nine times in the same class term; make a copy of works to take the
place of an anthology; and may not make a copy of "consumable" materials, such as workbook.

**Permitted Practice**

A teacher may make—for use in scholarly research, in teaching or in preparation for teaching a class—a single copy of the following: a chapter from a book; an article from a periodical or newspaper; a short story, short essay or short poem (whether or not from a collected work); a chart, graph, diagram, drawing, cartoons or picture from a book, periodical or newspaper; may make (for classroom use only and not to exceed one per student in a class) multiple copies of the following: a complete poem (if it has fewer than 250 words and is printed on not more than two pages), an excerpt from a prose work (if the excerpt has fewer than 1,000 words or 10 percent of the work, whichever is less) and one chart, graph, diagram, cartoon or picture per book or periodical.

A library may, for interlibrary-loan purposes, make up to six copies a year of a periodical published within the last five years, make up to six copies a year of small excerpts from longer works, make copies of unpublished works for purposes of preservation and security and make copies of out-of-print works that cannot be obtained at a fair price.

**Guidelines for Off-Air Recording of Broadcast Programming for Education Purposes**

A broadcast program may be recorded off-air simultaneously with broadcast transmission (including simultaneous cable retransmission) and retained for a period not to exceed the first 45 consecutive calendar days after
date of recording. Upon conclusion of such retention period, all off-air recordings must be erased or destroyed immediately.

Off-air recordings may be used once by individual teachers in the course of relevant teaching activities and repeated once, only when instructional reinforcement is necessary, in classrooms and similar places devoted to instruction within a single building, cluster or campus, as well as in the homes of students receiving formalized home instruction, during the first 10 consecutive school days in the 45 calendar day retention period. “School days” are school session days—not counting weekends, holidays, vacations, examination periods or other scheduled interruptions—within the 45 calendar day retention period.

Off-air recordings may be made only at the request of and used by individual teachers and may not be regularly recorded in anticipation of requests. No broadcast program may be recorded off-air more than once at the request of the same teacher, regardless of the number of times the program may be broadcast.

A limited number of copies may be reproduced from each off-air recording to meet the legitimate needs of teachers under these guidelines. Each such additional copy shall be subject to all provisions governing the original recordings.

After the first 10 consecutive school days, off-air recordings may be used up to the end of the 45 calendar day retention period only for evaluation purposes by the teacher, i.e., to determine whether or not to include the
broadcast program in the teaching curriculum. They may not be used for student exhibition or any other non-evaluation purpose without authorization.

Off-air recordings need not be used in their entirety, but the recorded programs may not be altered from their original content. Off-air recordings may not be physically or electronically combined or merged to constitute teaching anthologies or compilations.

All copies of off-air records must include the copyright notice on the broadcast programs as recorded.

**Computer Software**

District employees may make a back-up copy of computer programs as permitted by current Federal Law. Back-up copies may be used for archival purposes only and all archival copies shall be destroyed in the event that continued possession of the computer program should cease to be rightful.

When software is used on a disk-sharing system, efforts shall be made to secure this software from copying.

Illegal copies of copyrighted programs shall not be made or used on school equipment.

Such records will be signed by each diver at the conclusion of each trip and submitted to the person responsible for collection of these records. An annual summary report will be used in the compilation of the district’s budget. A copy of the annual report may be given to the board on or before the regular board meeting in June or upon request.

A maintenance record for each vehicle shall be kept as long as the school owns or leases the vehicle, and for at least two years following disposition of the vehicle. Maintenance records shall include information on scheduled maintenance, lubrication records, repair orders, and other maintenance.

Any driver who tests positive for any of the following shall be immediately terminated: marijuana, cocaine, amphetamines, opiates (including heroin) phencyclidine (PCP) or any other illegal drug.

Licensing of Drivers

It shall be the responsibility of all school bus drivers to register with the superintendent annually the validity of license certification by the Kansas Department of Revenue. If a school bus driver’s license is suspended or revoked at any time, the driver shall report the suspension or revocation to the superintendent and the employee shall immediately cease driving a school bus. School bus drivers shall receive a copy of this policy annually on registering their driving certification with the superintendent.

Housing of School Vehicles

All school vehicles shall be housed in the areas designated by the superintendent. Buses may be housed in the district’s central storage area or assigned to a designated driver who may then house the bus as directed.

If district cars or vans are assigned to designated employees, the employee shall be responsible for the proper care and housing of the vehicle at a district-owned site.

Meal prices will be determined by the board.

Free and Reduced Price Meals

Parents or guardians of all students attending schools participating in federal school meal programs must be informed in writing of the availability of reimbursable school meals and provided with information about eligibility and the process for applying for free or reduced price meals on or before the start of school each year pursuant to the Healthy, Hunger-Free Kids Act of 2010. The Superintendent or his/her designee will be responsible for the oversight of this program.

Meal charging requirements at Auburn-Washburn Secondary Buildings are as follows:
A meal account for students paying full or reduced price for meals may be established with the district. Payment for charges to the student’s account is the responsibility of the parent or guardian. Students may charge no more than negative ($25.00) to this account. This negative balance will be considered “Delinquent Debt.” Charging of a la carte or extra items to this account will not be permitted if the account has a negative balance of $5.00 or more.

Once a student’s balance reaches the negative $25.00 amount, daily notification will be made to the student’s parent or guardian. The district will continue to provide meals to the student until the negative amount reaches $50.00. When the “Delinquent Debt” reaches an amount at or above the negative $50.00, district administration will be authorized to use additional resources to make contact with the parent or guardian to encourage them to provide for their student’s meal needs.

Balances at or above the negative $25.00 amount at the end of a semester will be determined to be “Bad Debt”. At that point district administration will be authorized to submit the debt to the district approved collections process.

The district will provide a copy of this unpaid meal charges policy in writing to all households at or before the start of school each year and to families and students that transfer into the district at the time of transfer. The terms of this policy will also be communicated to all district staff responsible for enforcing any aspect of the policy. Records of how and when it is communicated to households and staff will be retained.

Memorials

As places designed primarily to support learning, school sites should not serve as the main venue for permanent memorials for students or staff. Permanent memorials for deceased students or staff should be limited in form to perpetual awards or scholarships for district students. Planting trees in memory of staff or student would be considered a perpetual gift to the school or district.

Any permanent memorials in existence before the adoption of this policy can only be removed by board action.

Naming of District Facilities

The board will consider requests from school and community groups to name a building or an area within a building (library, gym, auditorium) for a person who has been deceased for at least five (5) years, provided the proposed name has special significance and/or the person has made an outstanding contribution to the school or the school system. The group making the request must agree to provide appropriate recognition such as a plaque, a portrait, or a marker for the school or area.

The following guidelines shall be used in the selection of the names for all new facilities or renaming of existing facilities, including, but not limited to:

- the street on which the facility is located;
- a major street abutting the facility site;

Playing Field/Arenas/Libraries/Auditoriums/Other Buildings

These areas shall be named in a manner which reflects the activity which is housed at the facility and recognizes the level of competition or participation which will occur in the facility. Any district employee who has reason to know or suspect that a child has been injured as a result of physical, mental or emotional abuse or neglect or sexual abuse, shall promptly report the matter to the local Department for Children and Families (DCF) office or to the local law enforcement agency if the DCF office is not open. Employees may file a report of suspected abuse anonymously to either the Department for Children and Families (DCF) by phoning 1-800-922-5330 or to local law enforcement officials. DCF or Law Enforcement Access to Students on School Premises (See JCAC)

The building principal shall allow a student to be interviewed by DCF or law enforcement representatives on school premises to investigate suspected child abuse and shall act as appropriate to facilitate the agency’s access to the child and to protect the student’s interests during the interview. State law grants the investigating agency the authority to determine whether a school employee may be present while the interview is being conducted, taking into account the child’s best interests. If asked to sit in on the interview by the agency representative conducting it, the building principal or designee thereof shall oblige such request in order to provide comfort to the child throughout the process and to facilitate the investigation.
Cooperation Between School and Agencies

Principals shall work with DCF and law enforcement agencies to develop a plan of cooperation for investigating reports of suspected child abuse or neglect. Emergency Safety Interventions (See GAO, JRB, JQ, and KN)

The board of education is committed to limiting the use of Emergency Safety Intervention ("ESI"), such as seclusion and restraint, with all students. Seclusion and restraint shall be used only when a student's conduct necessitates the use of an emergency safety intervention as defined below. The board of education encourages all employees to utilize other behavioral management tools, including prevention techniques, de-escalation techniques, and positive behavioral intervention strategies.

This policy shall be made available on the district website with links to the policy available on any individual school pages. In addition, this policy shall be included in at least one of the following: each school’s code of conduct, school safety plan, or student handbook. Notice of the online availability of this policy shall be provided to parents during enrollment each year.

“Mechanical Restraint” means any device or object used to limit a student’s movement.

“Parent” means: (1) a natural parent; (2) an adoptive parent; (3) a person acting as a parent as defined in K.S.A. 72-1046(d)(2), and amendments thereto; (4) a legal guardian; (5) an education advocate for a student with an exceptionality; (6) a foster parent, unless the student is a child with an exceptionality; or (7) a student who has reached the age of majority or is an emancipated minor.

“Physical Escort” means the temporary touching or holding the hand, wrist, arm, shoulder, or back of a student who is acting out for the purpose of inducing the student to walk to a safe location.

person appropriately licensed to issue the order for the device;

- Any device used by a certified law enforcement officer to carry out law enforcement duties; or

- Seatbelts and other safety equipment when used to secure students during transportation.

**Use of Emergency Safety Interventions**

ESI shall be used only when a student presents a reasonable and immediate danger of physical harm to such student or others with the present ability to effect such physical harm. Less restrictive alternatives to ESI, such as positive behavior interventions support, shall be deemed inappropriate or ineffective under the circumstances by the school employee witnessing the student's behavior prior to the use of any ESI. The use of ESI shall cease as soon as the immediate danger of physical harm ceases to exist. Violent action that is destructive of property may necessitate the use of an ESI. Use of an ESI for purposes of discipline, punishment, or for the convenience of a school employee shall not meet the standard of immediate danger of physical harm.

**ESI Restrictions**

A student shall not be subjected to ESI if the student is known to have a medical condition that could put the student in mental or physical danger as a result of ESI. The existence of such medical condition must be indicated in a written statement from the student’s licensed health care provider, a copy of which has been provided to the school and placed in the student’s file.
Such written statement shall include an explanation of the student’s diagnosis, a list of any reasons why ESI would put the student in mental or physical danger, and any suggested alternatives to ESI. Notwithstanding the provisions of this subsection, a student may be subjected to ESI, if not subjecting the student to ESI would result in significant physical harm to the student or others.

**Use of Seclusion**

When a student is placed in seclusion, a school employee shall be able to see and hear the student at all times.

All seclusion rooms equipped with a locking door shall be designed to ensure that the lock automatically disengages when the school employee viewing the student walks away from the seclusion room, or in case of emergency, such as fire or severe weather.

A seclusion room shall be a safe place with proportional and similar characteristics as other rooms where students frequent. Such room shall be free of any condition that could be a danger to the student, well-ventilated, and sufficiently lighted.

**Training**

All staff members shall be trained regarding the use of positive behavioral intervention strategies, de-escalation techniques, and prevention techniques. Such training shall be consistent with nationally recognized training programs on ESI. The intensity of the training provided will depend upon the employee’s position. Administrators, licensed staff members, and other staff deemed most likely to need to restrain a student will be provided more intense training than staff who do not work directly with
students in the classroom. District and building administration shall make the determination of the intensity of training required by each position.

Each school building shall maintain written or electronic documentation regarding the training that was provided and a list of participants, which shall be made available for inspection by the state board of education upon request.

**Notification and Documentation**

The principal or designee shall notify the parent the same day as an incident. The same-day notification requirement of this subsection shall be deemed satisfied if the school attempts at least two methods of contacting the parent. A parent may designate a preferred method of contact to receive the same-day notification. Also, a parent may agree, in writing, to receive only one same-day notification from the school for multiple incidents occurring on the same day.

Documentation of the ESI used shall be completed and provided to the student’s parents no later than the school day following the day of the incident. Such written documentation shall include: (A) The events leading up to the incident; (B) student behaviors that necessitated the ESI; (C) steps taken to transition the student back into the educational setting; (D) the date and time the incident occurred, the type of ESI used, the duration of the ESI, and the school personnel who used or supervised the ESI; (E) space or an additional form for parents to provide feedback or comments to the school regarding the incident; (F) a statement that invites and strongly encourages
parents to schedule a meeting to discuss the incident and how to prevent future incidents; and (G) email and phone information for the parent to contact the school to schedule the ESI meeting. Schools may group incidents together when documenting the items in subparagraphs (A), (B) and (C) if the triggering issue necessitating the ESIs is the same.

The parent shall be provided the following information after the first and each subsequent incident during each school year: (1) a copy of this policy which indicates when ESI can be used; (2) a flyer on the parent’s rights; (3) information on the parent’s right to file a complaint through the local dispute resolution process (which is set forth in this policy) and the complaint process of the state board of education; and (4) information that will assist the parent in navigating the complaint process, including contact information for Families Together and the Disability Rights Center of Kansas. Upon the first occurrence of an incident of ESI, the foregoing information shall be provided in printed form or, upon the parent’s written request, by email. Upon the occurrence of a second or subsequent incident, the parent shall be provided with a full and direct website address containing such information.

**Law Enforcement, School Resource, and Campus Security Officers**

Campus police officers and school resource officers shall be exempt from the requirements of this policy when engaged in an activity that has a legitimate law enforcement purpose. School security officers shall not be exempt from the requirements of this policy.

If a school is aware that a law enforcement officer or school resource officer has used seclusion, physical restraint, or mechanical restraint on a student, the school shall notify the parent the same day using the parent’s
preferred method of contact. A school shall not be required to provide written
documentation to a parent, as set forth above, regarding law enforcement use of
an emergency safety intervention, or report to the state department of education
any law enforcement use of an emergency safety intervention. For purposes of
this subsection, mechanical restraint includes, but is not limited to, the use of
handcuffs.

**Documentation of ESI Incidents**

Except as specified above with regard to law enforcement or school
resource officer use of emergency safety interventions, each building shall
maintain documentation any time ESI is used with a student. Such
documentation must include all of the following:

- Date and time of the ESI,
- Type of ESI,
- Length of time the ESI was used,
- School personnel who participated in or supervised the ESI,
- Whether the student had an individualized education program at
  the time of the incident,
- Whether the student had a section 504 plan at the time of the
  incident, and whether the student had a behavior intervention
  plan at the time of the incident.

All such documentation shall be provided to the building principal,
who shall be responsible for providing copies of such documentation to the
superintendent or the superintendent’s designee on at least a biannual basis. At
least once per school year, each building principal or designee shall review the documentation of ESI incidents with appropriate staff members to consider the appropriateness of the use of ESI in those instances.

**Reporting Data**

District administration shall report ESI data to the state department of education as required.

**Parent Right to Meeting on ESI Use**

After each incident, a parent may request a meeting with the school to discuss and debrief the incident. A parent may request such meeting verbally, in writing, or by electronic means. A school shall hold a meeting requested under this subsection within 10 school days of the parent’s request. The focus of any such meeting shall be to discuss proactive ways to prevent the need for emergency safety interventions and to reduce incidents in the future.

For a student with an IEP or a Section 504 plan, such student’s IEP team or Section 504 plan team shall discuss the incident and consider the need to conduct a functional behavioral assessment, develop a behavior intervention plan, or amend the behavior intervention plan if already in existence.

For a student with a section 504 plan, such student’s section 504 plan team shall discuss and consider the need for a special education evaluation. For students who have an individualized education program and are placed in a private school by a parent, a meeting called under this subsection shall include the parent and the private school, who shall consider whether the parent should request an individualized education program team meeting. If the parent
requests an individualized education program team meeting, the private school shall help facilitate such meeting.

For a student without an IEP or Section 504 plan, the school staff and the parent shall discuss the incident and consider the appropriateness of a referral for a special education evaluation, the need for a functional behavioral assessment, or the need for a behavior intervention plan. Any such meeting shall include the student’s parent, a school administrator for the school the student attends, one of the student’s teachers, a school employee involved in the incident, and any other school employees designated by the school administrator as appropriate for such meeting.

The student who is the subject of such meetings shall be invited to attend the meeting at the discretion of the parent. The time for calling such a meeting may be extended beyond the 10-day limit if the parent of the student is unable to attend within that time period. Nothing in this section shall be construed to prohibit the development and implementation of a functional behavior assessment or a behavior intervention plan for any student if such student would benefit from such measures.

Local Dispute Resolution Process

If a parent believes that an emergency safety intervention has been used on the parent’s child in violation of state law or board policy, the parent may file a complaint as specified below.

The board of education encourages parents to attempt to resolve issues relating to the use of ESI informally with the building principal and/or the superintendent before filing a formal complaint with the board. Once an informal complaint is received, the administrator handling such complaint shall
investigate such matter, as deemed appropriate by the administrator. In the event that the complaint is resolved informally, the administrator must provide a written report of the informal resolution to the superintendent and the parents and retain a copy of the report at the school. The superintendent will share the informal resolution with the board of education and provide a copy to the state department of education.

If the issues are not resolved informally with the building principal and/or the superintendent, the parents may submit a formal written complaint to the board of education by providing a copy of the complaint to the clerk of the board and the superintendent within thirty (30) days after the parent is informed of the incident.

Upon receipt of a formal written complaint, the board president shall assign an investigator to review the complaint and report findings to the board as a whole. Such investigator may be a board member, a school administrator selected by the board, or a board attorney. Such investigator shall be informed of the obligation to maintain confidentiality of student records and shall report the findings of fact and recommended corrective action, if any, to the board in executive session.

Any such investigation must be completed within thirty (30) days of receipt of the formal written complaint by the board clerk and superintendent. On or before the 30th day after receipt of the written complaint, the board shall adopt written findings of fact and, if necessary, appropriate corrective action. A copy of the written findings of fact and any corrective action adopted by the board shall only be provided to the parents, the school, and the state department
of education and shall be mailed to the parents and the state department within 30 days of the board's receipt of the formal complaint.

If desired, a parent may file a complaint under the state board of education administrative review process within thirty (30) days from the date a final decision is issued pursuant to the local dispute resolution process.

The district will participate in workers compensation as required by current statute. The combined workers’ compensation benefits and salary received under allowed paid leave, shall not exceed one full day's pay. Employees covered by the negotiated agreement are referenced to that document.

All employees of the district shall be covered by workers compensation. Workers compensation coverage is provided for all employees regardless of assignment, length of assignment, and/or hours worked per day. Benefits are for personal injury from accident or industrial diseases arising out of and in the course of employment in the district.

An injured employee must notify the designated employer’s workers compensation coordinator or, if the coordinator is unavailable, his or her supervisor within 20 days of the injury or within 20 days of repetitive trauma in order to be eligible for benefits.

The workers compensation plan will provide coverage for medical expenses and wages to the extent required by statute to those employees who qualify; however, the amount of workers compensation benefits and paid leave benefits shall not exceed a regular daily rate of pay.

When an employee is injured he/she will use available paid leave to cover his/her absence. If the employee qualifies for workers compensation wages, his/her sick leave account will be reinstated for sick leave days used during the injury in the ratio of workers compensation pay to his/her regular daily rate of pay. The wages of the next paycheck will be docked in an amount equal to the workers compensation pay received. An employee

qualified for workers compensation who is off work and eligible to draw benefits under this policy shall receive 100 percent (100%) of the daily rate for the day(s) of salary lost by using a combination of accumulated sick leave {if he/she has sufficient day(s) accumulated} and workers compensation benefits. Any employee who is off work and receiving workers compensation benefits shall be required to provide the designated workers compensation coordinator with a written doctor’s release before the employee is allowed to return to work. In addition, should the employee be released to return to work by a doctor and fail to do so, all benefits under paid leave shall be ended and those benefits under workers compensation shall be restricted as provided by current statute.

Whenever an employee is absent from work and is receiving workers compensation benefits due to a work-related injury or is receiving district paid disability insurance, the employee may use available paid leave to supplement the worker compensation or district paid disability insurance payments. Workers compensation benefits and FMLA benefits provided in a board approved plan shall run concurrently if both are applicable.

In no event shall the employee be entitled to a combination of workers compensation benefits, district paid disability insurance, and salary in excess of his/her full salary. Available paid leave may be used for this purpose until 1) available paid leave benefits are exhausted; 2) the employee returns to work; 3) the employee is released by the medical provider and a position is
offered by the employer, but the employee declines to return to work; or 4) employment is terminated. Paid leave shall be calculated on a prorata amount equal to the percentage of salary paid by the district.

The board, through its designated workers compensation coordinator, may require a post-injury chemical test as authorized by K.S.A. 44-501 *et seq.*, and, if such test is refused, all workers compensation benefits shall be forfeited by the employee.

**Choice of Physician**

The board shall have the right to choose a designated health care provider to provide medical assistance to any employee who suffers an injury while performing their job. The employee shall be allowed to return to duty upon recovery from the illness, or when the employee is no longer contagious as authorized by the employee's physician.

The board reserves the right to require a written statement from the employee's physician indicating that the employee is free from all symptoms of the communicable disease.

If a district employee has been diagnosed as having a communicable disease and the superintendent has been notified by the employee, as provided in policy, the superintendent or the superintendent’s designee shall determine whether a release shall be obtained from the employee's physician before the employee returns to duty.

Decisions regarding the type of employment setting for an employee with a communicable disease shall be made by the superintendent or the superintendent’s designee based upon consideration of the physical condition of the employee and the following factors:
• the nature of the risk;
• the duration of the risk;
• the severity of the risk; and

FAMILY AND MEDICAL LEAVE PLAN

Family and medical leave as required by federal law shall be granted for a period of not more than 12 weeks during a 12-month period. For purposes of this policy, a 12-month period shall be defined as a fiscal year beginning on July 1 and ending the following June 30. Spouses who are eligible for FMLA leave and are both employed by the district may be limited to a combined total of 12 weeks of leave during any 12-month period if the leave is taken for birth of the employee's son or daughter or to care for the child after birth, for placement of a son or daughter with the employee for adoption or foster care or to care for the child after placement, or to care for the employee's parent with a serious health condition.

Leave is available because of:

(1) the birth of a son or daughter of the employee and to care for the son or daughter;
(2) the placement of a son or daughter with the employee for adoption or foster care;
(3) the need to care for a spouse, son, daughter or parent of the employee because of a serious health condition;
(4) a serious health condition of the employee that prevents the employee from performing the job functions;

(Leave for reason 1 or 2 must be taken within 12 months of birth or placement.)

The leave shall normally be unpaid leave. However, if the employee has any paid vacation, personal, sick or disability leave that is available for use because of the reason for the leave, the paid leave shall be used concurrently with the annual family and medical leave. The superintendent will notify the employee of the beginning date of family and medical leave and the amount of the employee's accrued paid leave designated as family and medical leave.

The employee is eligible for family and medical leave upon completion of 12 months of service in the district and employed at least 1250 hours during the preceding year.

During the period of any unpaid family and medical leave the board shall continue to pay the employer's share of the cost of group health benefits in the same manner as paid immediately prior to the leave. Any employee portion of the cost shall be paid by the employee to the clerk of the board on the payroll date or other time as the employee and superintendent may agree. The board may terminate group health coverage if the employee payment is not received within 30 days of the due date.
When leave is foreseeable, the employee shall give written notice 30 days in advance. If leave is not foreseeable, notice will be given as soon as practicable.

Upon the employee providing notice of need for leave, the employer will notify the employee of:

a. whether or not the employee is eligible for FMLA leave, and the reasons that leave will count as family and medical leave,
b. any requirements for medical certification;
c. employer requirement of substituting paid leave;
d. requirements for premium payments for health benefits and employee responsibility for repayment if employer pays employee share;
e. right to be restored to same or equivalent job; and

Leave for reason 1 or 2 must be taken within 12 months of the date of birth or placement of the child. Family leave for reasons 1 or 2 may not be used intermittently or on a part-time basis without the prior approval of the superintendent.

If the leave is for a reason other than the employee’s serious health conditions, the superintendent may require an instructional employee to continue leave until the end of a semester, if:

1. the leave begins in the last five (5) weeks of a semester, will last more than two (2) weeks and the return to work would occur in the last two (2) weeks of a semester, or
2. the leave begins in the last three (3) weeks of a semester, and lasts more than five (5) days.

Employees are entitled to military leave under the Uniformed Services Employment and Reemployment Act of 1994. The Act applies to military service that began on or after December 12, 1994 or military service that began before December 12, 1994 if the employee was a reservist or National Guard member who provided notice to the employer before leaving work.

Reemployment rights extend to persons who have been absent from work because of “service in the uniformed services.” The uniformed services consist of the following military branches:

- Army, Navy, Marine Corps, Air Force or Coast Guard.
- Army Reserve, Navy Reserve, Marine Corps Reserve, Air Force Reserve or Coast Guard Reserve.
- Army National Guard or Air National Guard.
- Commissioned corps of the Public Health Service.
- Any other category of persons designated by the President in time of war or emergency.

“Service” in the uniformed services means duty on a voluntary or involuntary basis in a uniformed service, including:

- Active duty.
- Active duty for training.
- Initial active duty for training.
- Inactive duty training.
- Full-time National Guard duty.
- Absence from work for an examination to determine a person’s fitness for any of the above types of duty.

The employee may be absent for up to five (5) years for military duty and retain reemployment rights. There are, however, exceptions which can exceed the five (5) years limit. Reemployment protection does not depend on the timing, frequency, duration or nature of an individual’s service. The
law enhances protections for disabled veterans including a requirement to provide reasonable accommodations and up to two (2) years to return to work if convalescing from injuries received during service or training.

The returning employee is entitled to be re-employed in the job that they would have attained had they not been absent for military service, with the same seniority, status and pay, as well as other rights and benefits determined by law. If necessary, the employer must provide training or retraining that enables the employee to refresh or upgrade their skills so they can qualify for reemployment. While the individual is performing military service, he or she is deemed to be on a furlough or leave of absence and is entitled to the non-seniority rights accorded other individuals on non-military leaves of absence. Individuals performing military duty of more than 30 days may elect to continue employer sponsored health care for up to 18 months at a cost of up to 102 percent of the full premium. For military service of less than 31 days, health care coverage is provided as if the individual had never left. All pensions which are a reward for length of service are protected.

Individuals must provide advance written or verbal notice to their employers for all military duty. Notice may be provided by the employee or by the branch of the military in which the individual will be serving.

Notice is not required if military necessity prevents the giving of notice; or, the giving of notice is otherwise impossible or unreasonable.

Accrued vacation or annual leave may be used (but is not required) while performing military duty. The individual’s timeframe for returning to work is based upon the time spent on military duty.

</tr>
</tbody>
</table>

The individual’s separation from service must be under honorable conditions in order for the person to be entitled to reemployment rights. Documentation showing eligibility for reemployment can be required. The employer has the right to request that an individual who is absent for a period of service of 31 days or more provide documentation showing: 1) the application for reemployment is timely; 2) the five-year service limitation has not been exceeded; and, 3) separation from service was under honorable conditions.

If documentation is not readily available or it does not exist, the individual must be re-employed. However, if after re-employing the individual, documentation becomes available that shows one or more reemployment requirements were not met, the employer may terminate the individual, effective immediately. The termination does not operate retroactively.

Questions should be directed to Veterans’ Employment and Training Service, U.S. Department of Labor.

Kansas law also requires reemployment if an individual is called to active duty by the state.

IC  **Curriculum Development** (See IDA)

The Board recognizes the need for and value of a systematic, ongoing program of curriculum development and evaluation. The design and implementation of the K-12 curriculum will be consistent with the Board’s adopted mission and applicable goals, state laws, and State Board of Education rules. The curriculum will be designed and implemented using a standards-based curriculum approach, reflecting standards, benchmarks and indicators aligned to the Kansas Curricular Standards for each subject. An environment to support curriculum delivery must be created and maintained by all functions of the organization.

The curriculum is designed to provide teachers and students with the Board’s expectations of what students are to learn. Teachers are expected to teach the curriculum of the district. Subject area written curriculum guides shall be developed for all grade levels and subjects in the district. The expectations are that:

1. All curriculum will be documented in writing;
2. The curriculum will be reviewed and updated as needed on a regular cycle of review;
3. Teachers will have copies of curriculum guides which include prioritized indicators and use the indicators in the guides to develop daily lesson plans; and
4. Administrators will work with teachers to maintain consistency and alignment between the written curriculum and the curriculum indicators actually taught.

The principal shall ensure that optimum use is made of available written curriculum materials and instructional time.

All programs, including those for special population students, are to be aligned to the district curriculum.

While instructional differentiation is expected to occur to address the unique needs of specific students, that instruction shall be derived from a set of curriculum learnings common to all students. There will be equitable access to the curriculum for all students.

The Superintendent shall establish assessment approaches for determining the effectiveness of instructional programming at district, campus, and classroom levels. Assessments will focus on determining the extent to which students are achieving and maintaining mastery of curriculum indicators and the extent to which instructors are displaying effective conveyance of curriculum in the classrooms.
IC  **Curriculum Development**  IC-2

Teachers will conduct frequent assessment of students on the curriculum indicators at the designated levels of priority. Multiple measures including teacher-made tests shall be used to determine patterns of student achievement. Teachers and supervisors shall use test results to assess the status of individual student achievement, to continuously regroup students for instruction, to identify general achievement trends of various groups of students, and to modify curriculum and/or instruction as warranted by assessment results.

Principals shall review assessments to help teachers ensure the assessments are congruent with the written curriculum.

**Modification**

The board deems it essential that the school system continually develop and modify its curriculum to provide a common direction of action for all instruction and programmatic efforts in the district and to meet changing needs.

All curriculum decisions, including but not limited to, elimination or addition of programs and courses and extensive content alteration, will be subject to board approval. Since the curriculum is a system decision, not a campus or employee decision, curriculum proposals from the employees will be presented first to central administration. If the proposal is acceptable at that level, it will then be presented to the Board.

**Personnel**

Outside resource and district personnel may be used in curriculum development (See BBG)  

**Financial Resources**

The administration shall ensure that the district’s budget becomes a document that reflects funding decisions based on the organization’s educational goals and priorities: a performance-driven budget. The budget development process will ensure that goals and priorities are considered in the preparation of budget proposals and that any decisions related to reduction or increase in funding levels will be addressed in those terms.

The board encourages the superintendent to secure federal, state and private grants, or other alternative funding sources for use in curriculum development. The certified staff is encouraged to utilize available material and community resources to assist in developing the instructional curriculum and extending beyond the traditional classroom setting.
**IC Curriculum Development**

Evaluation of Instructional Program (See IJ)

A program evaluation component that guides program redesign around the district curriculum and associate programs, as well as program delivery is an integral part of the district instructional program.

**BOE Approved: September 7, 2010**
ICA  Pilot Projects  (See IDAE)  

The board supports the use of pilot projects before any new instructional technique is implemented on a district-wide basis. Such projects shall be presented to the board for approval prior to implementation.

Pilot project means any research or experimentation program or project designed to explore or develop new, unproven teaching methods or techniques. All instructional materials, including teachers' manuals, audio-visual materials or any other supplementary instructional material to be used in connection with a pilot project shall be available for inspection by parents or guardians of the students engaged in the program or project.

Student Surveys

Except as provided in board policy IDAE with regard to surveys about a student’s or the student’s parents’ or guardians’ personal beliefs or practices on issues such as sex, family life, morality, or religion, any instrument designed to survey students, either by district staff or by an outside agency or individual, shall be made available for inspection by parents or guardians before the survey is administered.

Pilot Project Evaluation

Before any pilot project proposal is submitted to the board for approval, an evaluation format shall be developed and included with the pilot project.

Approved: July 21, 2014
IDA  Instructional Program (See IC)

The academic program shall assist students to grow intellectually, to learn the curriculum indicators at appropriate levels of priority, and to prepare for further education or training. The board shall consider the district’s instructional program on a regular schedule. When approved, the program shall constitute the district’s curriculum.

Curriculum Guides

Subject area written curriculum guides shall be developed for all grade levels and courses in the district. Guides will include the curriculum indicators expected at that particular grade level or course at the determined levels of priority. * A service provider engaged to perform a function of instruction may be allowed to retain student transcripts as required by applicable laws and rules and regulations. Destruction shall comply with the NISTSP800-88 standard of data destruction.

Unless an adult student or parent or guardian of a minor student provides written consent to disclose personally identifiable student data, student data may only be disclosed to a governmental entity not specified above or any public or private audit and evaluation or research organization if the data is aggregate data. “Aggregate data” means data
collected or reported at the group, cohort, or institutional level and which contains no personally identifiable student data.

Student Data Security Breach

If there is a security breach or unauthorized disclosure of student data or personally identifiable information of any student submitted to or maintained on a statewide student longitudinal data system, each affected student or the parent or legal guardian of the student, if a minor, shall be immediately notified, and an investigation into the causes and consequences of the breach or unauthorized disclosure will be conducted.
Biometric Data

The district shall not collect biometric data from a student or use any device or mechanism to assess a student's physiological or emotional state, unless the adult student or the parent or legal guardian of the minor student consents in writing. “Biometric data” includes measurable biological or behavioral characteristics that can be used for automated recognition of an individual, such as fingerprints, retina and iris patterns, voiceprints, DNA sequence, facial characteristics, and handwriting.

Nothing in this policy shall prohibit the collection of audio voice recordings, facial expression information, and student handwriting for:

- provision of counseling or psychological services,
- conducting student threat assessments,
- completing student disciplinary investigations or hearings, or
- conducting child abuse investigations.

Select Student Surveys

No test, questionnaire, survey, or examination containing any questions about a student’s or the student’s parents’ or guardians’ personal beliefs or practices on issues such as sex, family life, morality, or religion shall be administered to any student unless:

- the parent or guardian is notified in writing; and
- the parent or guardian of the student gives written permission or digital acknowledgement for the student to participate.

Nothing shall prohibit school counselors from providing counseling services, including the administration of tests and forms as
part of student counseling services. Any information obtained through such tests or counseling services shall not be stored on any personal mobile electronic device which is not owned by the school district. Storage of such information on personal laptops, tablets, phones, flash drives, external hard drives, or virtual servers not owned by the district is prohibited.

Students may be questioned:

- in the provision of psychological services,

District Approved Field Trips

Field trips may be approved by the principal when reasonable educational outcomes can be established. Extended field trips must have prior approval of the board.

Advance requests for field trips including transportation and other resource needs shall be submitted by the teacher to the principal. Each building principal shall develop a method to notify parents of a forthcoming field trip. The notification shall include information regarding the nature of the trip, departure time, expected return time, name of sponsor(s), and mode of travel.

Student safety during travel to and from athletic and activity trip locations, as well as during the trip, is of the highest importance. Coaches and sponsors shall be responsible for appropriate communication with parents and for pre-trip orientation, which shall include scheduling and safety information.

Extended Field Trips

Field trips which require more than one day or are over three hundred miles one way must have board approval at least thirty days in advance. Events scheduled by the KSHSAA are not covered by this policy. Recurring

Non-sanctioned Field Trips

Non-sanctioned field trips organized by employees acting as independent contractor/agents involving students on a volunteer, self-supporting basis are not approved by the board and are not considered a part of the curriculum. Total responsibility for privately-planned field trips or tours rests with the individual(s) and agency sponsoring them. The district assumes no legal or financial responsibilities for non-sanctioned field trips.

Every attempt should be made to schedule non-board approved trips during weekends and/or vacation periods. If travel arrangements necessitate that some school days are missed, normal procedures for staff and students absences must be followed.

If recruitment of students is sought through the school(s), the request for recruitment shall be made in accordance with those of private citizens. Recruitment efforts may not occur during class time or the employee’s duty day.

IKD  Religion in Curricular or School Sponsored Activities  IKD
(See AEA, IF, IKDA and KN)

No religious belief or non-belief shall be promoted or disparaged by the
district or its employees. Students and staff should be tolerant of each other's
religious views. Students and staff members may be excused from participat-
ing in practices contrary to their religious beliefs unless there are clear issues
of overriding concern which prevent it.

Teaching About Religion

Teachers may teach about religion, religious literature and history but
are prohibited from promoting, expounding upon, criticizing or ridiculing a
religion. Religious texts may be used to teach about religion, but the use of
religious texts is prohibited if used to promote a particular religious doctrine.

Religion in the Curriculum and School Activities

In compliance with this policy, religious themes may be presented in
the curriculum and as part of school activities. Music, art, literature and dra-
ma having a religious theme or basis are permitted as part of the curriculum or
as part of a school activity if they are presented in a balanced and objective
manner and are a traditional part of the cultural and religious tradition of a
particular holiday or field of study. The emphasis on religious themes in the
arts, literature and history should be only as extensive as necessary for a bal-
anced and thorough study of these areas. These studies should never foster
any particular religious tenets or demean any religious beliefs or non-beliefs.

Religious Symbols in the Classroom

Temporary display of religious symbols is permitted as part of the cur-
riculum. The temporary use of religious symbols such as a cross, menorah,
crescent, Star of David, crèche, symbols of Native American religions or other
symbols that are a part of a religious holiday are permitted as a teaching aid if they are displayed as an example of a holiday's cultural and religious heritage.

**Religious Holidays**

Holidays which have a religious and a secular basis may be observed. School vacations shall have secular designations, e.g., Winter Vacation, Spring Break.

**Graduation and Other Ceremonies**

School ceremonies shall be secular in nature. While recognizing the significance of tradition, the board requires that graduation exercises and dedications ceremonies be secular in nature.

Approved: March 1, 2010
A parent or guardian (or a student eighteen years of age or older) may request that the student be excused from participating in activities for religious reasons. The parent, guardian, or adult student must complete the district opt-out form for religious objections, stating the specific activity, the portion of the curriculum in which the activity exists, and the reasons for the request. The request may be granted, or denied, or partially granted and partially denied.

This policy shall not be interpreted to allow parents to prevent the dissemination of information which parents find religiously objectionable. Rather, this policy only extends to actual participation by their child in an activity, the performance of which is contrary to the child's religious teachings.

A parent or guardian seeking to opt-out their child from activities contrary to the child's religious teachings must complete the district's Activity Participation Opt-Out Form regarding religious objections which is available in the board office. Parents desiring to opt-out their children from activities due to religious reasons must return the completed and signed form to the principal. The form must be submitted within a reasonable amount of time prior to the scheduled activity in order to allow time for the principal to consider the request. The completed form shall be kept on file with the clerk and the superintendent shall receive a copy.

The principal shall review the request and determine whether the request should be granted or denied. The principal shall notify the parents of the decision within a reasonable amount of time after the request is submitted.
If the parents are dissatisfied with the principal's decision, they may appeal, in writing, to the superintendent.

**IKDA Religious Objections to Activities**

If the opt-out request is granted, students who opt-out of activities for religious reasons may still be required to view the activity, to learn the subject matter of the activity, or to discuss the activity. The student may be reassigned during the activity or given alternative class assignments.

Opt-out requests must be submitted annually and are valid only for the school year in which they are submitted.

Animals and Plants in the School

Prior Approval

Animals or plants may be brought to school for instructional purposes only after obtaining prior approval of the principal. Principals will follow the Compendium of Measures to Prevent Disease Associated with Animals in Public Settings, specifically Appendix ‘Guidelines for Exhibition of Animals in School and Childcare Settings’ and other applicable State laws, regulations, and guidelines in making the decision to approve specific animal or plants into schools.

Prohibited Animals and Plants

Baby chicks and ducks are specifically prohibited in schools because of the high risk of salmonellosis and campylobacteriosis from these animals. However, fertilized chicken eggs provided under the Shawnee County K-State Research and Extension Office School Enrichment Program are allowable so long as newly hatched chicks are promptly removed from the classroom as directed by the program. Animals with venom that is harmful to humans and toxic plants are prohibited on school property.

Environment for Animals Housed in Schools

All animals housed in schools will be provided an appropriate environment and a proper diet. A proper plan for the continued care of these animals during the days that school is not in session must be in place.

Injury from Contact

Humans that come in contact with animals or plants shall be instructed about proper handling and hand washing procedures. If someone is injured by an animal or by contact with a plant, the incident shall be immediately report-
ed to the principal by the supervising teacher. The principal shall ensure that an accident report is forwarded to the Superintendent. A proper plan for the protection of students who may have allergies to the animal must be in place.

**Service Animals in the Schools**

Service animals may be permitted in the schools and on school property in accordance with board-approved guidelines and may be used by employees, patrons, and students. In order for the district to accommodate the health and safety of our students and staff while maintaining our educational services, programs, and activities, employees and students are encouraged to notify their building administrator prior to bringing a service animal to school for the first time. Patrons or individuals attending functions or having short term business on school property are not required to provide advance notice to school staff in order to be accompanied by a service animal on school property.

Access to school buildings will not be denied to a service animal as long as the animal is individually trained and required to do work or perform tasks for the benefit of an individual with a disability. Such work or tasks must be directly related to the individual’s disability. District staff shall not be responsible to provide care or control of a service animal, and any service animal which is out of control or is not housebroken may be excluded by district staff.

This policy does not apply to animals provided by the school for instructional purposes or for therapy.

Approved: August 5, 2019

All student handbooks shall be consistent with board policy, approved by the board and adopted, by reference, as a part of these policies and rules.

Approved: July 11, 2016
Daily attendance records shall be maintained for each student in each school. The primary responsibility for recording attendance shall be assigned to teachers using a format prescribed by the superintendent. A cumulative attendance record for each student shall be kept in the principal's office.

The superintendent shall include attendance data in the annual report to the board. Attendance problems shall be reported to the board as necessary.

Approved: March 22, 2010
Resident Students

A “resident student” is any child who has attained the age of eligibility for school attendance and lives with a parent or a person acting as a parent who is a resident of the district. Children who are “homeless” as defined by Kansas law and who are located in the district will be admitted as resident students. For purposes of this policy, “parent” means the natural parents, adoptive parents, step-parents and foster parents. For purposes of this policy, “person acting as a parent” means a guardian or conservator, a person liable by law to care for or support the child, a person who has actual care and control of the child and provides a major portion of support or a person who has actual care and control of the child with written consent of a person who has legal custody of the child.

Non-resident Students

The Board does not accept new non-resident students. Non-resident students are those who do not meet the definition of a resident student. Currently enrolled K-12 non-resident students may be re-admitted through an annual application process and only to the extent that resources and space are available and a student is considered “in good standing” as previously reflected by his/her attendance, conduct, academic history, and with no substantial outstanding fees.

Enrollment Restriction

Unless approved in advance by the board, no student, regardless of residency, who has been suspended or expelled from another school district will be admitted to the district until the period of such suspension or expulsion has expired.
Non-resident students may be admitted according to the following:

A. Staff members' children may attend any school in the district if enrolled prior to September 20 of the current school year, if they are employed by the district in a position that qualifies for benefits only to the extent that resources and space are available, and a student is considered in "good standing" as previously reflected by his/her attendance, conduct, academic history, and with no substantial outstanding fees. A written request must be submitted to the Superintendent of Schools by current employees on or before May 1 of the previous school year. New staff must make their request immediately upon being hired (prior to September 20 of the current school year). Currently enrolled K-12 non-resident students, including staff members' children, may be re-admitted through an annual application process and only to the extent that resources and space are available and a student is considered "in good standing" as reflected by his/her attendance, conduct, academic history, and with no substantial outstanding fees.

The written request shall state if the student is coming from outside of district or desiring to attend an elementary school outside their residence boundary.

B1. Anyone residing outside the district with their new legal residence being constructed or purchased within the district and occupancy is planned within sixty (60) school days after the student has enrolled and attending prior to September 20 of the current school year may attend district schools subject to approval by
the superintendent. If occupancy has not occurred within the allotted time the student shall not be allowed to continue attending a district school. An extension of time may be granted at the discretion of the superintendent.

B-2. Individuals who are residing in temporary housing, but desire their permanent new residence to be in the Auburn-Washburn School District, may seek permission to enroll their children in Unified District 437 from the Superintendent of Schools. If permanent housing is not found inside the boundaries of the district within a reasonable period, the student(s) shall be required to transfer to their district of residence at an appropriate time.

C. A student who has a school residence in the district continuously between July 1 and December 30, of the preceding school year, and who was enrolled in the district on the immediate preceding September 20 and who is presently residing outside the district because that student’s parents sold their residence in the district and are in the process of constructing a new residence within the district and plan the construction of the new residence within the district may attend school for 90 school days during the construction of the new residence. Residency requirements shall be reviewed by the superintendent at the end of said 90 school days.

D. Students whose families move to a residence outside the district during the school year may remain in the USD #437 district, if they so desire, until the end of the school year in which they
move. Parents shall be required to furnish transportation to the school or to the nearest bus route transporting students to their child’s attendance center. (See Rule A for high school exception.)

E. A student living outside the district who has been accepted to and is enrolled in the Washburn Rural Alternative High School and is making satisfactory progress may continue without further applications. This exception applies to Washburn Rural Alternative High School only.

Enrollment Procedures

The superintendent shall establish orderly procedures for enrolling all students, including pre-enrollment, changes in enrollment, normal enrollment times and communication to parents and to the public.

Part-Time Students

Students in USD 437 are expected to enroll and attend school full time. However, part-time students with unusual circumstances may enroll upon the recommendation of the principal and approval of the superintendent if they complete all paperwork in a timely fashion and are in attendance no later than September 20. Part-time students may participate only to the extent that resources and space are available and with the approval of the Superintendent.

Students in grade levels Kindergarten through grade twelve enrolled in private/home-school programs who live within USD 437 boundaries may apply to the school district to participate in specific district courses or programs to the extent that resources and space are available; upon the recommendation of the principal and approval of the Superintendent if application is completed and they are in attendance no later than September 20th.
High school students in private/home-schools residing in USD 437 desiring to attend Washburn Institute of Technology must enroll one-half time through either Washburn Rural High School or Washburn Rural Alternative High School, whichever school is the home school. Such half-time enrollment must be in attendance at Washburn Institute of Technology.

All private/home-school students must be enrolled and attending by September 20 of each year, unless such date falls on a weekend day; in such case the date is the following school day. Exceptions may be approved by the superintendent of the schools. (Procedures are available by contacting the Clerk of the Board.)

The following procedures apply for private/home-school student acceptance in district courses or programs:

1. A parent/guardian must make application for co-enrollment (home-school and public school) in their designated attendance center as determined by the student's home address no later than May 1 of each year (exceptions to the May 1 deadline may be granted by the superintendent of schools.) The principal will forward all such applications to the superintendent of schools with a recommendation based on available staff, facilities, equipment, and supplies.

2. The building principal will determine if sufficient classroom space exists and if an appropriate pupil-teacher ratio exists to allow the enrollment of a private/home-school student.

3. If the application is not recommended by the principal, the superintendent will review the recommendation and if the superintendent concurs with the recommendation, the superintendent will review the possibility of placement in another attendance center based on available staff, facilities, equipment, and supplies.

4. Final approval or disapproval of all private/home-school student attendance center placement rests with the superintendent of schools.

5. The parent/guardian of a private/home-school student must provide evidence of registration of their school with the Kansas State Department of Education at the time of application.
6. All applicable procedures, processes, and scheduling for full-time students will apply to the co-enrolled students as stated in Board of Education Policy and student handbooks.

7. If approved, the private/home-school student will enroll in the assigned teacher's schedule and will not request or petition for a change in that school. Due to substantial curriculum integration in the various attendance centers, it is understood that various disciplines may not conduct a separate block of teaching time.

8. Parents/guardians will provide their own transportation to and from the designated attendance center if needs are not met by regular district bus service and routes.

9. Parents/guardians providing their own transportation will not bring students to school any sooner than five minutes before the course or program begins and will pick up their students within five minutes after the end of the course or program.

10. Private/home-school students may attend special programs or field trips which are in conjunction with the course or program in which such students are enrolled.

11. Co-enrolled private/home-school students may participate in the free/reduced lunch and breakfast program if eligible.

12. Regular enrollment fees will be assessed on a pro-rated basis with the amount determined by the percentage of the school day which is used.

13. Instructors will not be expected or required to provide lesson plans, instructional supplies, or other instructional materials to home-school students in classes or programs for which they are not enrolled.

14. Private/home-school students enrolled in any academic class which is affected by the Auburn-Washburn School District Assessment Program shall be required to participate in the testing program which pertains to the specific course or program in which the students are enrolled.

15. Grade placement decisions for private/home-school students entering or returning to any attendance center in USD 437 shall be determined by the building principal.

16. Private/home-school students who enroll in courses where activities are governed by the Kansas State High School Activities Association will not participate in such activities unless they meet the Kansas State High School Activities Association...
requirements; this may impact the grade and credit in such course. Such courses may be taken for no credit by private/home-school students.

17. All extracurricular activities subject to the jurisdiction of the Kansas State High School Activities Association will follow the rules and regulations of the KSHSAA.

Identification of Students

All students enrolling in the district for the first time shall provide required proof of identity. Students enrolling in kindergarten or first grade shall provide a certified copy of their birth certificate, a certified copy of the court order placing the child in the custody of the Secretary of the Department for Children and Families, or other documentation which the superintendent determines to be satisfactory. Students enrolling in grades 2-12 shall provide a certified transcript or similar pupil records, or data, or other documentary evidence the board deems satisfactory.

The above requirements are not to serve as barriers to immediate enrollment of students designated as homeless or foster children as required by Every Student Succeeds Act (ESSA) and the McKinney-Vento Act as amended by ESSA. The district shall work with the Department for Children and Families, the school last attended, or other relevant agencies to obtain necessary enrollment documentation.

If proper proof of identity is not provided within 30 days of enrolling, the superintendent shall notify local law enforcement officials as required by law and shall not notify any person claiming custody of the child.

Enrollment Information

The enrollment documentation shall include a student’s permanent record card with a student’s legal name as it appears on the birth certificate, or
as changed by a court order and the name, address, and telephone number of
the lawful custodian. The records shall also provide proper proof of identity.

**Assignment to a School Building, Grade Level or Classes**

Students shall attend the attendance center designated by attendance
center boundaries. However, people residing on a boundary line will be pro-
vided a choice of attending either attendance center, providing room and
transportation arrangements permit, with the final decision being made by the
superintendent. Any student desiring to attend a school outside the attendance
area in which the student resides may do so only with the prior written permi-
sion of the board. Such student will follow the procedures listed below:

**A.** An annual application is to be submitted to the Board of Edu-
cation by the parent(s) or guardian(s) stating the reason for re-
questing attendance of a school outside the student’s residence
boundary. The application shall also include student(s)
name(s), grade(s) and address.

1. For students seeking to attend a different school, requests
must be received by May 1 for consideration for the start of a
new school year. The Board of Education will notify the par-
ent(s) or guardian(s) of its final decision after the first Board
meeting in June.

2. For students who have been enrolled and attending an
attendance center but move during the school year to another
attendance center area requests must be received prior to
the move. The Board will notify the parent(s) or guardian(s)
as soon as possible.

**B.** In either case, the parent(s) or guardian(s) shall be responsi-
ble for transporting their children to and from school or to the
nearest bus stop on a regular route for that attendance center.

**C.** To attend an attendance center outside their residence bound-
ary, parent(s) or guardian(s) must apply each year.
If required by law, students placed in foster care or students who are homeless may be educated in their “school of origin” instead of the building corresponding to the assigned attendance area. (For definition of “school of origin”, see regulations for JBCA.)

Assignment to a particular grade level or particular classes shall be determined by the building principal based on the age and/or educational needs of the student. If the parents disagree, the principal’s decision may be appealed to the superintendent. If the parents are still dissatisfied with the assignment, they may appeal in writing to the board.

Transferring Credit

In the middle school and in the high school, full faith and credit shall be given to units earned in other accredited schools, unless the principal determines there is valid reason for not doing so. For online credit approval procedures after enrollment, see board policy IIBGB.

Transfers from Non-Accredited Schools

Students transferring from non-accredited schools will be placed by the principal. Initial placement will be made by the principal after consultation with parents or guardians and guidance personnel. Final placement shall be made by the principal based on the student’s documented past educational experiences and performance on tests administered to determine grade level placement.

Students who transfer from non-accredited schools shall provide the following information:

1. Name of course.
2. Name of instructor.
3. Instructor’s social security number
4. Instructor’s state certification
5. Number of clock hours of course duration
6. Grade earned
7. Units of credit given by previous school

Grade Placement (K-8)

Grade level placement of transfer students in grades K-8 will be determined by the school officials based upon the student’s academic records, the student’s test results and the recommendation from the previous school. The district may administer a standardized achievement test if adequate records are not available. A student may be moved from the initial placement based on academic performance.

Approved: March 2, 2020
The district, in accordance with state and federal law and the Kansas state plan will ensure that homeless children in the school district have access to a free and appropriate public education. Homeless students are individuals who lack a fixed, regular, and adequate nighttime residence. For the purposes of this policy, a student awaiting foster care placement shall not be considered homeless.

Coordinator

The board shall designate a homeless coordinator for the district.

Homeless Student Regulations

Required by Federal and State Law

**Homeless students shall, by definition, include the following:**

1. Children and youth who are sharing the housing of other persons due to loss of housing, economic hardship, or a similar reason; are living in motels, hotels, trailer parks, or camping grounds due to the lack of alternative adequate accommodations; are living in emergency or transitional shelters; or are abandoned in hospitals.

2. Children and youth who have a primary nighttime residence that is a public or private place not designated for or ordinarily used as a regular sleeping accommodation for human beings.

3. Children and youth who are living in cars, parks, public spaces, abandoned buildings, substandard housing, bus or train stations or similar settings.

4. Migratory children who meet one of the above-described circumstances.

**Enrollment/Placement (See JBC)**

The district, according to the child’s or youth’s best interest, shall either continue the child’s or youth’s education in the school of origin for the duration of homelessness in any case in which: 1. a family becomes homeless between academic years or during an academic year; and 2. for the remainder of the academic year, if the child or youth becomes permanently housed during an academic year; or enroll the child or youth in any public school that nonhomeless students who live in the attendance area in which the child or youth is actually living are eligible to attend.

**School Stability**

In determining the best interest of the child or youth, the district homeless student liaison shall:

1. Presume that keeping the child or youth in the school of origin is in the child’s or youth’s best interest, except when doing so is contrary to the
request of the child's or youth's parent or guardian, or (in the case of an unaccompanied youth) the youth:

2. Consider student-centered factors related to the child's or youth's best interest, including factors related to the impact of mobility on achievement, education, health, and safety of homeless children and youth, giving priority to the request of the child's or youth's parent or guardian or (in the case of an unaccompanied youth) the youth;

3. If, after conducting the best interest determination based on consideration of the presumption in clause (1) and the student-centered factors in clause (2), it is determined that it is not in the child's or youth's best interest to attend the school of origin or the school requested by the parent or guardian, or (in the case of an unaccompanied youth) the youth, provide the child's or youth's parent or guardian or the unaccompanied youth with a written explanation of the reasons for its determination, in a manner and form understandable to such parent, guardian, or unaccompanied youth, including information regarding the right to appeal such determination; and

4. In the case of an unaccompanied youth, ensure that the district homeless student liaison assists in placement or enrollment decisions under this subparagraph, gives priority to the views of such unaccompanied youth, and provides notice to such youth of the right to appeal.

Immediate Enrollment

The school selected shall immediately enroll the homeless child or youth, even if the child or youth:
1. Is unable to produce records normally required for enrollment, such as previous academic records, records of immunization and other required health records, proof of residency, or other documentation; or

2. Has missed application or enrollment deadlines during any period of homelessness.

Relevant Academic Records

The enrolling school shall immediately contact the school last attended by the child or youth to obtain relevant academic and other records.

Relevant Health Records

If the child or youth needs to obtain immunizations or other required health records, the enrolling school shall immediately refer the parent or guardian of the child or youth, or (in the case of an unaccompanied youth) the youth, to the district homeless student liaison, who shall assist in obtaining necessary immunizations or screenings, or immunization or other required health records.

Records

Any records ordinarily kept by the school, including immunization or other required health records, academic records, birth certificates, guardianship records, and evaluations for special services or programs, regarding each homeless child or youth shall be maintained so that the records involved are available, in a timely fashion, when a child or youth enters a new school or school district and in a manner consistent with the Family Educational Rights and Privacy Act. See policies JR through JRD.

Enrollment Disputes
If a dispute arises over eligibility, school selection, or enrollment in a school:

1. The child or youth shall be immediately enrolled in the school in which enrollment is sought (whether sought by the parent, guardian, or unaccompanied youth), pending final resolution of the dispute, including all available appeals;

2. The parent or guardian of the child or youth or (in the case of an unaccompanied youth) the youth shall be provided with a written explanation of any decisions related to school selection or enrollment made by the school, the local educational agency or the State educational agency involved, including the rights of the parent, guardian, or unaccompanied youth to appeal such decisions; and

3. The parent, guardian, or unaccompanied youth shall be referred to the district homeless student liaison, who shall carry out the dispute resolution process as expeditiously as possible after receiving notice of the dispute.

Placement Choice

The choice regarding placement shall be made regardless of whether the child or youth lives with the homeless parents or has been temporarily placed elsewhere.

Privacy

Information about a homeless child’s or youth’s living situation shall be treated as a student education records, and shall not be deemed to be directory information, under policy JRB.
Contact Information

Nothing shall prohibit the district from requiring a parent or guardian of a homeless child or youth to submit contact information.

Definition

The term “school of origin” means the school that a child or youth attended when permanently housed or the school in which the child or youth was last enrolled, including a preschool.

When the child or youth completes the final grade level served by the school of origin, the term “school of origin” shall include the designated receiving school at the next grade level for all feeder schools.

Comparable Services

Each homeless child or youth shall be provided services comparable to services offered to other students in the school selected, including:

1. Transportation services;

2. Educational services for which the child or youth meets the eligibility criteria, such as services provided under Title I of the Elementary and Secondary Education Act of 1965 or similar State or local programs, educational programs for children with disabilities, and educational programs for English learners;

The district shall coordinate the provision of services under these regulations with the Department for Children and Families and other agencies or entities providing services to homeless children and youths and their families, including services and programs funded under the Runaway and Homeless Youth Act (42 U.S.C. 5701 et seq.), and transportation, transfer of school records, and other interdistrict activities, with other local educational agencies.

Housing Assistance

If applicable, the district shall coordinate with state and local housing agencies responsible for developing the comprehensive housing affordability strategy to minimize educational disruption for children and youths who become homeless.

The coordination required shall be designed to:

1. Ensure that all homeless children and youths are promptly identified;

2. Ensure that all homeless children and youths have access to, and are in reasonable proximity to, available education and related support services; and

3. Raise the awareness of school personnel and service providers of the effects of short-term stays in a shelter and other challenges associated with homelessness.

Homeless Children and Youths with Disabilities

For children and youths who are both homeless and eligible for services under the Individuals with Disabilities Education Act (20 U.S.C. 1400 et seq.), the
district shall coordinate the provision of services under these regulations with the
provision of programs for children with disabilities served by the district and
other involved local educational agencies.

District Homeless Student Liaison

The board designates the following individual to act as the district’s
homeless student liaison: Executive Director of Teaching and Learning, 5928 SW
53rd Street, Topeka, KS 66610, 785-339-4000. The district shall inform school
personnel, service providers, and advocates working with homeless families of the
duties of this liaison. The district homeless student liaison shall ensure:

   opportunity to succeed in, district schools;

   received educational services for which such families, children, and youths
   are eligible, including services through Head Start programs (including
   Early Head Start programs) under the Heat Start Act (42 U.S.C. 9831 et

   Disabilities Education Act (20 U.S.C. 1431 et seq.), and other preschool

6. Public notice of the educational rights of homeless children and youths is disseminated in locations frequented by parents or guardians of such children and youths, and unaccompanied youths, including schools, shelters, public libraries, and soup kitchens, in a manner and form understandable to the parents and guardians of homeless children and youths, and unaccompanied youths;

7. Enrollment disputes are mediated in accordance with these regulations;

8. The parent or guardian of a homeless child or youth, and any unaccompanied youth, is full informed of all transportation services, including transportation to the school of origin, and is assisted in accessing transportation to the school that is selected;

9. School personnel providing services under these regulations receive professional development and other support; and

10. Unaccompanied youths;
   a. are enrolled in school;
   b. have opportunities to meet the same challenging state academic standards as Kansas establishes for other children and youth; and
   c. are informed of their status as independent students under federal law regarding student financial assistance for higher education acquisition
and that the youths may obtain assistance from the district homeless student liaison to receive verification of such status for purposes of the Free Application for Federal Student Aid.

The liaison shall also work with the state coordinator for education of homeless children and youth to request and receive needed technical assistance and monitoring to ensure the district complies with federal and state law regarding homeless students. Similarly, the liaison will coordinate with the state coordinator in order to provide professional development opportunities for district personnel to aid them in identifying and meeting the needs of homeless children and youths and will respond to inquiries from parents, guardians, and homeless children and youths to ensure they are provided with the full protection of the law and services they are due.

Notice

The district shall inform school personnel, service providers, advocates working with homeless families, parents and guardians of homeless children and youths, and homeless children and youths of the duties of the district homeless student liaison, and publish annually updated contact information for the liaison on the district’s website.

Local and State Coordination

The district homeless student liaison, as a part of assigned duties, shall coordinate and collaborate with state coordinators, the community, and school personnel responsible for the provision of education and related services to
homeless children and youths. Such coordination shall include collecting and providing to the state coordinator the reliable, valid, and comprehensive data.

Homeless Status

The district homeless student liaison may affirm, without further agency action by the Department of Housing and Urban Development, that a child or youth who is eligible for and participating in a program provided by the district, or the immediate family of such a child or youth, who meets the eligibility requirements, is eligible for such program or service.

Dispute Resolution Process

A complaint regarding the placement or education of a homeless child or youth shall first be presented orally and informally to the district’s homeless student liaison. If the complaint is not promptly resolved, the complainant may present a formal written complaint (grievance) to the homeless student liaison. The written complaint must include the following information: date of filing, description of concerns, the name of the person or persons involved, and a recapitulation of the action taken during the informal charge stage. Within five (5) working days after receiving the complaint, the liaison shall state a decision in writing to the complainant, with supporting evidence and reasons. In addition, the liaison will inform the superintendent of the formal complaint and the disposition.

Transportation (See EDAA, JBC, and JGG)

If it is in the best interest of the homeless child or youth to attend the school of origin, transportation to and from that school will be provided at the request of the parent or guardian or, in the case of an unaccompanied youth,
the homeless coordinator. If the student’s temporary housing is outside the attendance area of the school of origin, then the district will work with the school of origin to agree on a method to apportion the responsibility and costs for transporting the child. If an agreement cannot be reached, the costs will be shared equally.

Approved: March 22, 2010
The district, in accordance with state and federal law and the Kansas state plan, will ensure that students placed in foster care within the school district have access to a public education in a stable educational environment. For the purposes of this policy and its applicable regulations, “foster care” means 24-hour substitute care for children placed away from their parents and for whom a child welfare agency has placement and care duties.

Point of Contact

The board shall designate an employee to serve as a point of contact for child welfare agencies on behalf of the district.

Approved: August 7, 2017
Foster Care Student Regulations
To Aid In Implementation of Federal Law

The Every Student Succeeds Act ("ESSA") addresses additional protections for students in foster care and establishes a system of joint responsibility for school districts, the Kansas State Department of Education ("KSDE"), and the Kansas Department for Children and Families ("DCF") to ensure the educational stability of students in foster care.

For the purposes of these regulations, "foster care" means 24-hour substitute care for children placed away from their parents and for whom a child welfare agency has placement and care duties. This includes, but is not limited to, placements in foster family homes, foster homes of relatives, group homes, emergency shelters, residential facilities, child-care institutions, and pre-adoptive homes.

Transportation of Students in Foster Care

ESSA requires each Kansas school district to collaborate with child welfare agencies, such as DCF and tribal child welfare agencies, to develop and implement clear, written procedures for how transportation to maintain a student in foster care in his or her school of origin (when in the student's best interest) will be provided, arranged, and funded. The procedures must ensure that the transportation will be provided promptly, in a cost-effective manner, and in accordance with federal law. Also, they must address how additional costs will be absorbed. Therefore, if there are any additional costs incurred to maintain a foster care student in his or her school of origin, the district will provide the transportation if:
1. DCF agrees to reimburse the district for the additional costs;
2. The district agrees to pay the additional costs; or
3. DCF and the district split the additional costs.

Upon request, the district will provide an assurance to KSDE that the district has transportation procedures meeting the above requirements.

**Additional Costs**

“Additional costs” reflect the difference between what the district would spend to transport a student to the assigned school and the cost of transporting a student in foster care to his or her school of origin. Title I, Part A funds may be used to pay for additional transportation costs in Title I districts.

**School of Origin**

The “school of origin” is the school in which a student is enrolled at the time of placement in foster care or of a change in placement. A student in foster care is entitled to remain enrolled in his or her school of origin unless it is determined not to be in the student’s best interest to stay at that school.

**Best-Interest Determination**

DCF will make the final decision regarding whether it is in a student’s best interest to remain in the school of origin. District staff may be asked to provide information on the “educational best interest” of the student to support educational decision-making based on what is best for the student academically. For students receiving special education and related services under the Individual with Disabilities Education Act or for students on Section 504 accommodation plans, it is recommended that relevant team members should be consulted in the best interest determination process, as the district will still be required to ensure compliance with Least Restrictive Environment requirements.
The United States Department of Education has provided a list of factors that may be considered in determining the student’s educational best interest, which include appropriateness of the current setting, proximity of placement to school attendance centers, the child’s preference, the parents’ preference, the child’s attachment to the school of origin, where siblings will be placed, and the availability of needed services. The “best-interest determination” may not be made based on transportation costs or funding.

District Foster Care Liaison

The “district foster care liaison” is the Executive Director of Teaching and Learning who facilitates the enrollment in or transfer to a public school of a student in the district who is a ward of the state. The district’s foster care liaison is considered the designated point of contact for collaboration with DCF on transportation procedures.

Child Welfare Agency

In Kansas, DCF is the regular child welfare agency for collaboration on transportation procedures. The Child Protective Services (“CPS”) division of DCF will typically be the division that works with the district on issues related to students in foster care, however, tribal child welfare agencies may also be involved with this process. Therefore, whenever DCF is used in these regulations, it may be deemed to apply to any child welfare agency based on the circumstances.

Child Welfare Contact

The district, if receiving Title I, Part A funds, must collaborate on transportation procedures with the DCF-designated contact if DCF notifies the district in writing that DCF has designated an employee to serve as a point of contact for the district.

Approved: August 7, 2017
When a student is absent from school an attempt shall be made to contact the parent or guardian to determine the reason for the absence. The principal has been designated to determine the acceptability and validity of reasons for absence presented by the parent(s) or the student.

Procedures for notifying the school on the day of a student’s absence shall be published in the student handbook.

**Excused Absences**

1. Personal illness;
2. Appointment for medical treatment;
3. A family crisis;
4. Extended absences of a student when expressly requested by the parent or guardian and prior arrangements have been made in preparation for the absences as defined in student handbooks;
5. Obligatory religious observances;
6. Participation in a district-approved or school sponsored activity; and,
7. Students of active duty military personnel may have additional excused absences at the discretion of the principals for visitations relative to leave or deployment.

All absences which do not fit into one of the above categories would be considered an unexcused absence. A student serving a period of suspension or expulsion from the district shall not be considered inexcusably absent.

**Significant Part of a School Day**

An absence of fifty percent or more of the school day shall be considered a significant part of the day.

**Make-Up Work**

It is the student’s responsibility to obtain make-up assignments from teachers following an excused or unexcused absence.

Approved: August 3, 2015
JBE  **Truancy** (See AEB, IDCE, JBD and JQ)

Unless reporting would violate the terms of any memorandum of understanding between the district and the authority to which reports would be made, the building principal shall report students who are inexcusably absent from school to the appropriate authority.

**Truancy** is defined as any three consecutive unexcused absences, any five unexcused absences in a semester or seven unexcused absences in a school year, whichever comes first. School year means the period from July 1 to June 30. Students who are absent without a valid excuse for a significant part of any school day shall be considered truant.

Prior to reporting to either DCF (if the student is under 13) or the county or district attorney (if the student is over 13 or more years of age but less than 18 years of age), a letter shall be sent to the student’s parent(s) or guardian notifying them that the student’s failure to attend school without a valid excuse shall result in the student being reported truant.

**Waiver of Compulsory Attendance Requirements**

Students 16 or 17 years of age may be exempted from compulsory attendance regulations if the parent(s) or person acting as parent attend(s) the counseling session required by law and signs the appropriate consent and waiver form; if the student earns a GED; or if the student is exempted from compulsory attendance requirements pursuant to a court order.

**Involvement of Law Enforcement**

Law enforcement officers may return truant children to the school where the child is enrolled, to the child’s parent or guardian or to another location designated by the board to address truancy issues.
Reporting to Parents

If a truant child is returned to school by a law enforcement official, the principal shall notify the parent or guardian.

Dual Enrollment Students

Eligible students who are enrolled in a board-approved dual enrollment program shall not be considered truant for the hours of the school day they attend classes at a Regents university, community college, technical college, vocational education school or Washburn University.

Building administrators, and others designated by the superintendent, may conduct investigations and question students about infractions of school rules or the student conduct code.

If there is reason to believe a violation of a criminal law has been committed, the principal shall notify the appropriate law enforcement agency and may request further investigation of the alleged violation.

**Coordination with Law Enforcement**

School administrators may meet periodically with local law enforcement officials to discuss the district’s policies and rules regarding law enforcement contacts with the district.

**Investigations Conducted by Law Enforcement Officers**

When law enforcement officers conduct an investigation and/or question a student(s) during school hours, the building principal shall make a reasonable attempt to contact parents, guardian or representative of the student(s) prior to questioning. Notification or attempted notification of parents, guardian or representative shall be documented by the administrator involved. If a student’s parents, guardian or representative is not present during questioning of a student, the principal may be present.

**Child Abuse Investigations Conducted by Law Enforcement Officers**

The administration shall cooperate with law enforcement officers who are conducting investigations of suspected child abuse. For any investigations concerning known or suspected child abuse, school staff shall follow the procedures outlined in board policy GAAD instead of the requirements of this policy.

If a demonstrated emergency is found, the principal shall require identification of law enforcement officials and reasons for the interrogation or investigation of a student. If the principal is not satisfied with either the identification or the reason, the request shall not be granted. The principal shall attempt to notify the superintendent and the officer’s superiors of the reasons for the refusal.

Violations of Criminal Law

Information on criminal conduct shall be turned over to law enforcement officials.

Taking Students Into Custody

Students shall not be voluntarily released by school officials to law enforcement authorities unless the student has been placed under arrest or taken into custody by law enforcement or DCF. Except as otherwise specified in this policy, reasonable effort shall be made to notify the student’s parents, guardian or representative when students are removed from school for any reason by law enforcement authorities. Parents shall not be notified by school officials when their child is taken into custody by DCF and/or law enforcement as a result of allegations of abuse or neglect. If a student is taken into
custody by a campus police officer, school administrators shall also make a
good-faith effort to contact parents. Notification efforts shall be documented.

When a student has been taken into custody or arrested on school
premises without prior notification to the building principal, the school staff
present shall ask the law enforcement officer to notify the principal of the cir-
cumstances as quickly as possible and shall themselves contact the principal
with any information they have regarding the child being taken into custody.

**Disturbance of School Environment**

Law enforcement officers may be requested to assist in controlling dis-

turbances at school and if necessary to take students or other persons into
custody.

The board is committed to providing a school environment that promotes student wellness as part of the total learning experience for its students. To this end, the board shall promote and monitor a local wellness plan that includes methods to promote student wellness, prevent and reduce childhood obesity, and provide assurance that school meals and other food and beverages sold and otherwise made available on the school campus during the school day are consistent with applicable minimum federal standards. The plan shall:

- Include goals for providing proper student nutrition promotion and education, physical activity, and other school-based activities designed to promote student wellness which are based on evidence-based strategies and techniques;
- Meet federal nutrition standards and guidelines for all foods and beverages provided to students in each school during the school day; and
- Ensure standards and nutrition guidelines for all foods and beverages sold to students during the school day at each district school are consistent with the requirements of the School Breakfast Program, the National School Lunch Program, and the competitive food standards established pursuant to the National School Lunch Program.

The Superintendent or designee shall be responsible for the implementation and oversight of this policy and plan to ensure each of the district’s schools, programs, and curriculum is compliant with this policy, the plan, and existing law and regulations.

Each building principal or designee shall annually report to the superintendent or designee regarding compliance in his/her school. Staff members responsible for programs related to school wellness shall also report to the superintendent or designee regarding the status of such programs. The superintendent or designee shall then annually report to the board on the district’s compliance with law, policy, and the district’s plan related to school wellness.

The wellness committee shall serve as an advisory committee regarding student health issues and shall be responsible for developing, implementing, and periodically reviewing and updating a school wellness policy and plan that complies with law to recommend to the board for adoption.

The wellness committee shall review and consider evidence-based strategies and techniques in establishing goals for nutrition education and promotion, physical activity, and other school based activities that promote student wellness as part of the policy and plan development and revision process.

The superintendent or designee and the wellness committee shall conduct an assessment at least once every three (3) years on the contents and implementation of this policy and plan as part of a continuous improvement process to strengthen them and ensure proper implementation. This triennial assessment shall be made available to the public in an accessible and easily understood manner and include:

- The extent to which district schools are in compliance with law, policy, and its plan related to school wellness;
- The extent to which this policy and plan compare to model local wellness policies; and
- A description of the progress made by the district in attaining the goals of this policy.

At least once every three (3) years, the district shall update or modify this policy and wellness plan based on the results of the most recent triennial assessment and/or as district and community needs and priorities change; wellness goals are met; new health science, information, and technologies emerge; or new federal or state guidance or standards are issued.

Booster shots required by the Secretary of the Department of Health and Environment are also required.

A copy of this policy and the applicable state law shall be distributed to students, prospective students or their parents on or before May 15th of each school year. The superintendent shall issue a news release each August explaining the required inoculations and booster shots. Parents may delegate in writing their authority to consent to immunizations. If the parent is not reasonably available, and the authority to consent has not been denied as provided in law, individuals other than the parent may consent to the immunizations as provided for in current law.

At the beginning of a school year, information shall be provided on immunizations applicable to school age children to parents and guardians of students in grades six through 12. The information on immunizations shall include:

- A list of sources for additional information; and

prescribed by law. Students who are not immunized against a particular disease(es) may be excluded from school during any outbreak.

The above requirements are not to serve as barriers to immediate enrollment of students designated as homeless or foster children as required by the Every Student Succeeds Act (ESSA) and the McKinney-Vento Act as amended by ESSA. The district shall work with the Department for Children and Families, the school last attended, or other relevant agencies to obtain necessary documentation of inoculations.

Any student noted by a physician or the school nurse as having a communicable disease may be required to withdraw from school for the duration of the illness. The student will be readmitted to regular classes upon termination of the illness, as authorized by the student’s physician or as authorized by a health assessment team.

The board reserves the right to require a written statement from the student’s physician indicating that the student is free from all symptoms of the disease.

If a student is absent from regular classes for more than three consecutive days or the principal has been notified that a student has a communicable disease, the principal shall determine whether a release shall be obtained from the student’s physician before the student reenters school.

Decisions regarding the type of education and the setting for provision of educational services for a student with a severe communicable disease of long duration shall be based on the child’s medical condition, the child’s behavior and neurological development, and the expected type of interaction with others in the educational setting. These decisions will be made after receiving input from the student’s physician, public health personnel, the student’s parent or guardian, and personnel associated with the proposed care or educational setting.

Approved: May 3, 2010
The board of education is committed to providing a positive and productive learning and working environment, free from discrimination on the basis of sex, including sexual harassment. Sexual harassment shall not be tolerated in the school district. Sexual harassment of employees or students of the district by board members, administrators, certificated and support personnel, students, vendors, and any others having business or other contact with the school district is strictly prohibited.

Sexual harassment is unlawful discrimination of the basis of sex under Title IX of the Education Amendments of 1972, Title VII of the Civil Rights Act of 1964, and the Kansas Acts Against Discrimination. All forms of sexual harassment are prohibited at school, on school property, and at all school-sponsored activities, programs or events. Sexual harassment against individuals associated with the school is prohibited, whether or not the harassment occurs on school grounds.

It shall be a violation of this policy for any student, employee or third party (visitor, vendor, etc.) to sexually harass any student, employee, or other individual associated with the school. It shall further be a violation for any employee to discourage a student from filing a complaint, or to fail to investigate or refer for investigation, any complaint lodged under the provisions of this policy.

Sexual harassment is unwelcome sexual advances, requests for sexual favors and other inappropriate oral, written or physical conduct of a sexual nature when made by a member of the school staff to a student or when made by any student to another student when: (1) submission to such conduct is
made, explicitly or implicitly, a term or condition of the individual’s education; (2) submission to or rejection of such conduct by an individual is used as the basis for academic decisions affecting that individual; or (3) such conduct has the purpose or effect of interfering with an individual’s academic or professional performance or creating an intimidating, hostile or offensive academic environment.

Sexual harassment may result from verbal or physical conduct or written or graphic material. Sexual harassment may include, but is not limited to: verbal harassment or abuse; pressure for sexual activity; repeated remarks to a person, with sexual or demeaning implication; unwelcome touching; or suggesting or demanding sexual involvement accompanied by implied or explicit threats concerning a student’s grades, participation in extra-curricular activities, etc.

The district encourages all victims of sexual harassment and persons with knowledge of such harassment to report the harassment immediately. The district will promptly investigate all complaints of sexual harassment and take prompt corrective action to end the harassment.

Any student who believes that he or she has been subjected to sexual harassment should discuss the alleged harassment with the building principal, another administrator, the guidance counselor, or another certified staff member. Any school employee who receives a complaint of sexual harassment from a student shall inform the student of the employee’s obligation to report the complaint and any proposed resolution of the complaint to the building principal. If the building principal is the alleged harasser, the complaint shall
be reported to the district compliance coordinator. The building principal or
district compliance coordinator shall discuss the complaint with the student to
determine if it can be resolved. If the matter is not resolved to the satisfac-
tion of the student in this meeting, the student may initiate a formal complaint
under the district’s discrimination complaint procedure in policy KN.

Complaints received will be investigated to determine whether, under
the totality of the circumstances, the alleged behavior constitutes sexual har-
assment under the definition outlined above. Unacceptable student conduct
may or may not constitute sexual harassment, depending on the nature of the
conduct and its severity, pervasiveness and persistence. Behaviors which are
unacceptable but do not constitute harassment may provide grounds for disci-
pline under the code of student conduct.

If discrimination or harassment has occurred, the district will take
prompt, remedial action to prevent its reoccurrence.

An employee who witnesses an act of sexual harassment shall report
the incident to the building principal. Employees who fail to report com-
plaints or incidents of sexual harassment to appropriate school officials may
face disciplinary action. School administrators who fail to investigate and
take appropriate corrective action in response to complaints of sexual haras-
ment may also face disciplinary action.

When a complaint contains evidence of criminal activity or child
abuse, the building coordinator or district coordinator shall report such con-
duct to the appropriate law enforcement or DCF authorities.

To the extent possible, confidentiality will be maintained throughout
the investigation of a complaint. The desire for confidentiality must be
balanced with the district’s obligation to conduct a thorough investigation, to take appropriate corrective action or to provide due process to the accused.

The filing of a complaint or otherwise reporting sexual harassment shall not reflect upon the individual’s status or grades. Any act of retaliation or discrimination against any person who has filed a complaint or testified, assisted, or participated in any investigation, proceeding, or hearing involving a sexual harassment complaint is prohibited. Any person who retaliates is subject to immediate disciplinary action, up to and including expulsion for a student or termination of employment for an employee.

False or malicious complaints of sexual harassment may result in corrective or disciplinary action against the complainant.

A summary of this policy and related materials shall be posted in each district facility. The policy shall also be published in student, parent, and employee handbooks as directed by the district compliance coordinator. Notification of the policy shall be included in the school newsletter or published in the local newspaper annually.

The board of education is committed to providing a positive and productive learning and working environment, free from discrimination, including harassment, on the basis of race, color, national origin, or disability. Discrimination or harassment on the basis of race, color or national origin ("racial harassment") or on the basis of disability ("disability harassment") shall not be tolerated in the school district. Racial or disability harassment of employees or students of the district by board members, administrators, certificated and support personnel, student, vendors, and any others having business or other contact with the school district is strictly prohibited.

Racial harassment is unlawful discrimination on the basis of race, color or national origin under Titles VI and VII of the Civil Rights Act of 1964, and the Kansas Acts Against Discrimination. Disability harassment is unlawful discrimination on the basis of disability under Section 504 of the Rehabilitation Act of 1973 and the Americans with Disabilities Act. All forms of racial or disability harassment are prohibited at school, on school property, and at all school-sponsored activities, programs or events. Racial or disability harassment against individuals associated with the school is prohibited, whether or not the harassment occurs on school grounds.

It shall be a violation of this policy for any student, employee or third party (visitor, vendor, etc.) to racially harass any student, employee or other individual associated with the school. It shall further be a violation for any employee to discourage a student from filing a complaint, or to fail to investigate or refer for investigation, any complaint lodged under the provisions of this policy.
Prohibited conduct under this policy includes racially or disability-motivated conduct which:

1. Affords a student different treatment, solely on the basis of race, color, national origin, or disability in a manner which interferes with or limits the ability of the student to participate in or benefit from the services, activities or programs of the school;

2. Is sufficiently severe, pervasive or persistent so as to have the purpose or effect of creating a hostile academic environment; or

3. Is sufficiently severe, pervasive or persistent so as to have the purpose or effect of interfering with a student’s academic performance or ability to participate in or benefit from the services, activities or programs of the school.

Racial or disability harassment may result from verbal or physical conduct or written graphic material.

The district encourages all victims of racial or disability harassment and persons with knowledge of such harassment to report the harassment immediately. The district will promptly investigate all complaints of racial or disability harassment and take prompt corrective action to end the harassment.

Any student who believes he or she has been subject to racial or disability harassment or has witnessed an act of alleged racial or disability harassment, should discuss the alleged harassment with the building principal, another administrator, the guidance counselor, or another certified staff member. Any school employee who receives a complaint of racial or disability harassment from a student shall inform the student of the employee’s obligation to report the complaint and any proposed resolution of the complaint to the building principal. If the building principal is the alleged harasser, the complaint shall be reported to the district compliance coordinator. The build-
ing principal shall discuss the complaint with the student to determine if it can be resolved. If the matter is not resolved to the satisfaction of the student in this meeting, the student may initiate a formal complaint under the district's discrimination complaint procedure in policy KN.

Complaints received will be investigated to determine whether, under the totality of the circumstances, the alleged behavior constitutes racial or disability harassment under the definition outlined above. Unacceptable student conduct may or may not constitute racial or disability harassment, depending on the nature of the conduct and its severity, pervasiveness and persistence. Behaviors which are unacceptable but do not constitute harassment may provide grounds for discipline under the code of student conduct. The discipline of a student for violation of any provision of the code of student conduct may be enhanced if the conduct is racially or disability motivated.

If discrimination or harassment has occurred, the district will take prompt, remedial action to prevent its reoccurrence.

An employee who witnesses an act of racial or disability harassment shall report the incident to the building principal. Employees who fail to report complaints or incidents of racial or disability harassment to appropriate school officials may face disciplinary action. School administrators who fail to investigate and take appropriate corrective action in response to complaints of racial or disability harassment may also face disciplinary action.
When a complaint contains evidence of criminal activity or child abuse, the compliance coordinator shall report such conduct to the appropriate law enforcement or DCF authorities.

To the extent possible confidentiality will be maintained throughout the investigation of a complaint. The desire for confidentiality must be balanced with the district’s obligation to conduct a thorough investigation, to take appropriate corrective action or to provide due process to the accused.

The filing of a complaint or otherwise reporting racial or disability harassment shall not reflect upon the student’s status or grades. Any act of retaliation or discrimination against any person who has filed a complaint or testified, assisted, or participated in any investigation, proceeding, or hearing involving a racial or disability harassment complaint is prohibited. Any person who retaliates is subject to immediate disciplinary action, up to and including expulsion for a student or termination of employment for an employee.

False or malicious complaints of racial or disability harassment may result in corrective or disciplinary action against the complainant.

A summary of this policy and related materials shall be posted in each district facility. The policy shall also be published in student, parent and employee handbooks as directed by the district compliance coordinator. Notification of the policy shall be included in the school newsletter or published in the local newspaper annually.

When appropriate, the student's parent(s) or guardian(s) shall be notified of the injury as soon as possible to determine appropriate action. If the student needs medical attention and the parents cannot be reached, the principal shall seek emergency medical treatment.

The supervision of medications shall be in strict compliance with the rules and regulations of the board as carried out by district personnel. Diagnosis and treatment of illness and the prescribing of drugs, and medicines are not the responsibility of the public schools and are not to be practiced by any school personnel, including school nurses, unless authorized.

In certain circumstances when medication is necessary in order that the student remain in school, the school may cooperate with parents in the supervision of medication that the student will use. However, the medical person authorized to prescribe medication or the parent if it is a non-prescription medication must send a written order to the building administrator who may supervise the administration of the medication or treatment. The parents must submit a written request to the building administrator requesting the school’s cooperation in such supervision and releasing the school district and personnel from liability.

School personnel shall not be required to be custodians of any medication except as required by a written order of a licensed medical person or in the case of nonprescription medication when requested in writing by the parents.

The medication shall be examined by the school employee administering the medication to determine that it appears to be in the original container, to be properly labeled and to be properly authorized by the written order of licensed medical person. Two containers, one for home and one for school, should be requested from the pharmacist.
Any changes in type of drugs, dosage and/or time of administration should be accompanied by new physician and parent permission signatures and a newly labeled pharmacy container.

All medication maintained in the school setting should be kept in a locked container. This includes medication requiring refrigeration.

Medications should be inventoried every semester. Out-of-date stock should be returned to parent or destroyed.

Over-the-counter medications should not be maintained on any school premises, including athletic areas, unless written parent permission to administer is obtained.

The building administrator may choose to discontinue the administration of medication provided that the parents or medical person are notified in advance of the date and the reasons for the discontinuance.

After medication is administered, students should be observed for possible reactions to the medication. This observation may occur at the site of administration or in the classroom as a part of the normal routine.

This policy shall be shared with all local physicians and dentists where practicable. Forms should also be made available to the health care providers in the community.

An individual record should be kept of each medication administered. The record should include student identification, date prescribed, name of medication, time and date(s) administered, signature of person administering and section for comments.
In the administration of medication, the school employee shall not be deemed to have assumed any legal responsibility other than acting as a duly authorized employee of the school district.

The student’s parent or guardian shall annually complete and submit to the school any written documentation required by the school, including the treatment plan prepared by the student’s health care provider. Permission forms shall be updated at the time the student enrolls in school.

All teachers responsible for the student’s supervision shall be notified that permission to carry medications and self-administer has been granted. The school district shall provide written notification to the parent or guardian of a student that the school district and its officers, employees and agents are not liable for damage, injury or death resulting directly or indirectly from the self-administration of medication.

Waiver of Liability

The student’s parent or guardian shall sign a statement acknowledging that the school districts and its officers, employees or agents incur no liability for damage, injury or death resulting directly or indirectly from the self-administration of medication and agreeing to release, indemnify and hold the schools and its officers, employees and agents, harmless from and against any claims relating to the self administration of medication allowed by this policy.
The parent or guardian of the student shall sign a statement acknowledging that the school incurs no liability for any injury resulting from the self-administration of medication and agreeing to indemnify and hold the school, and its employees and agents, harmless against any claims relating to the self-administration of such medication.

2. An outside group wishing to rent the WRHS auditorium, gymnasiums, and varsity fields, the WRMS cafetorium or gymnasiums, or other designated district facilities.
Fees and Rental Charges

Please refer to sections KG (pages 9-12) for a schedule of appropriate fees.

Borrowing Equipment

Permission must be granted by the superintendent or designee before any district equipment is removed from the school grounds. Equipment may be used at the building by civic and educational organizations when approved by the appropriate building administrator. Equipment may be used by a community organization outside of the school building if approved by the superintendent or designee. The borrowing organization becomes financially responsible for any damage to or loss of borrowed equipment. Please refer to KGA for further guidelines.

Availability of Facilities

The superintendent or his/her designee shall approve or disapprove requests for use of designated school facilities for non-school use within the procedures established and approved by the board. The building administrator or superintendent can cancel any use of designated school facilities if the school facility is needed for a school activity or if the district is not able to arrange district staff for required staffing.

The district reserves the right to cancel reservations due to unforeseen circumstances or for need by the district.

Procedures for Requesting Facilities

A Facility Rental Request should be initiated and a Facility Rental Contract must be completed through the building administrator at least (10) ten days prior to the date(s) requested. The individual(s) signing the rental contract will be considered the responsible party. That individual(s) or
designated 437 staff member must be present during the usage of the facility. The (10) ten day stipulation may be waived in special circumstances by the building administrator.

A copy of the rental contract shall be presented to the custodian by a building administrator at the time admittance to the facility is approved. The custodian is to grant admittance only to groups having previously made arrangements through the building administrator as evidenced by the produced rental contract.

The building user is allowed access only to the facilities described in the rental agreement, access to restrooms, and access to the storm shelter for protection in the event of a severe weather warning. All fees will be made payable to USD 437 and paid to the building administrator prior to the scheduled activity.

Facilities and Equipment

School equipment shall not be loaned to groups or individuals without the permission of the Superintendent or designee. (Exception: Equipment may be loaned to district employees with the permission of the building principal.) The responsible person will take full financial responsibility for the safe keeping and protection from damage for equipment borrowed. (See Policy KGA.)

The granting of use of a designated part of a facility confers no access to other parts of the facility.

No changes are to be made in the arrangements of the rooms or stage equipment without prior written permission of the building administrator.

The renter shall not make physical alterations to the building or equipment (no nails, screws, hangers, etc.)
Grass Areas

The user of the designated area is allowed access only to the area described in the Use Agreement and to associated parking areas. No driving or parking on grass areas is permitted. There will be no access to other district facilities granted, including restrooms, unless otherwise stipulated in the Use Agreement.

Staffing

The building administrator may require a staff supervisor from the district to be present when he/she determines the need for such a staff supervisor while the rental group is present. The renter will be charged the staff supervisor rate. The facility will not be made available unless the renter agrees to the requirement for the staff supervisor.

A district custodian shall be on duty when facilities are in use. The designated custodian or school staff supervisor has the authority of the building administrator and will insure proper use of school facilities. However, the person in charge of the group using the facility shall be responsible for the conduct of the group. The custodian on duty will admit the group to the building, be present in the building during the time of use, and will secure the building when the group departs. Use of facilities at times when custodians are not normally on duty or when extra duties are required, involve extra expense which will be charged on the rental contract. The district reserves the right to determine the hours of custodial staffing that are necessary for facilities usage. For programs where arrangements have been made to have chairs and/or tables set up, the extra time necessary for setup will be included in the required hours and the set up will be specified in the rental contract.
Kitchen

Whenever the kitchen is required, a food service worker must be present in the kitchen. Use of the kitchen at times when food service workers are not normally on duty or when extra duties are required, involve extra expense which will be charged on the rental agreement. The district reserves the right to determine the hours of food service staffing that are necessary for kitchen usage. The hours required will be determined by the district food service supervisor.

Auditorium/Cafetorium/Scoreboard

A district technician familiar with lighting, sound, and stage equipment may be necessary to supervise the use of this type of equipment. The district reserves the right to determine the hours of technical staffing necessary for use of facilities that includes use of specialized electronic equipment.

Exception: If a qualified school district employee is a member of the user group and is willing to accept responsibility to perform required staffing at no cost, staffing charge will not apply. A qualified employee must be familiar with heating, ventilating, utility systems and equipment to be used. The exception must be noted on the rental contract and the employee clearly identified. The building administrator will determine an employee’s “qualified employee” status.

When any artificial turf field is rented, a high school staff supervisor(s) must be present to supervise the use of the field.

Supervision

The renter is responsible for supervision of the activity, parking and crowd control.
As a condition to initial use of and continued access to district property and facilities, groups and/or organizations must follow Kansas law and board policy prohibiting the use of drugs, alcohol, and tobacco on district property and ensure individuals in attendance refrain from using such substances on district property as well. Failure to abide by this provision may result in a revocation of facility use privileges. No food or drink is permitted in the school except where special arrangements have been made with the building administrator and then only in those areas designated in writing on the rental contract.

No youth baseball, softball or soccer will be allowed inside of any building, including gymnasiums. High school softball, baseball, and soccer teams needing indoor facilities due to inclement weather must have permission from the building administrator and must use modified equipment during the indoor practice.

An exception to this is the indoor pitching and batting cages in Gym A at Washburn Rural High School. Youth teams composed of at least 50% of USD 437 patrons may use the cages, when available, with administrator approval.

**Damages**

Prior to departure, the renter and building custodian will review the area and equipment used. Any damages or discrepancies must be noted on the rental contract and initialed by both parties. All facility users shall agree to pay for all loss of or damage to, property or equipment beyond ordinary wear. Damages and cost will be determined by the building administrator, executive director of business services, and assistant director of operations.

**Liability**

For prolonged use of a designated facility, more than one time (multiple dates of usage under one rental contract), the renter shall provide a general liability insurance policy, naming the district as an also/additional insured,
with a $500,000 combined single limit for the duration of the usage and shall furnish to the building administrator. Based upon the event, district administration may determine that insurance is needed for a single date usage as well.

Shelters

The renter shall be responsible for warning people of impending severe weather and is responsible for the prompt movement of these people to areas designated as storm shelters in the building. If renter fails to take proper precautions in the event of severe weather and consequentially places participants, fans, or staff at risk, the district may cancel use of the facility for any future use by the renter. For use of grass areas there will most likely be no district shelter available. In this case, the renter is responsible for determining when it is most prudent to cancel the event in order to allow participants to leave and give them time to get to a place of shelter.

Fees

Rental fees are to reimburse the district for building and equipment depreciation, custodial services, utilities, and consumable supplies. Rental costs will be calculated using the schedule for rental of facilities fees. *(KG, pages 9-12.)* The district reserves the right to change these fees without prior notice.

Rental fees are payable in advance to the building administrator. Rental contracts will not be issued until payment is received. For multi-date usage, a fee payment schedule shall be established by the Executive Director of Business Services. Any additional charges will be billed after the rental date.

Prompt payment for damages and conditions of supervision will determine future eligibility for use of facilities.
Building Administrator Responsibility

Scheduling the use of designated school facilities must be done through a building administrator. The rental contract shall be prepared and signed by the building administrator, who will maintain a file containing all facilities rental contracts. The building administrator will provide a copy of the rental agreement to the custodian responsible for staffing the scheduled activity, and in the case of an artificial turf field, a copy to the high school staff supervisor. In the case of use of grass areas a copy of the agreement shall be sent to the District Police Chief and to the District Operations office.

The building administrator is responsible for calculating and collecting the rental fee. Documentation will be kept at the building for a period of two full years. Rental fee payments will be sent to the district business office at least once a month.

The Executive Director of Business Services shall maintain copies of rental contracts and the revenues collected each year.

Any school employee who receives a complaint of discrimination or harassment from a student shall inform the student of the employee’s obligation to report the complaint and any compliance coordinator. Complaints about discrimination, including complaints of harassment, will be resolved through the following complaint procedures:

**Informal Procedures**

including harassment; for participating in the complaint process; or making a complaint, testifying, assisting, or participating in any investigation, proceeding, or hearing.

**Formal Complaint Procedures**

- A formal complaint should be filed in writing and contain the name and address of the person filing the complaint. The complaint should briefly describe the alleged violation. If an individual does not wish to file a written complaint and the matter has not been adequately resolved, the building principal may initiate the complaint. Forms for filing written complaints are available in each building office and the central office.

- A complaint should be filed as soon as possible after the conduct occurs, but not later than 180 days after the complainant becomes aware of the alleged violation, unless the conduct forming the basis for the complaint is ongoing.

- If appropriate, an investigation shall follow the filing of the complaint. If the complaint is against the superintendent, the board shall appoint an investigating officer. In other instances, the investigation shall be conducted by the building principal, the compliance coordinator or another individual appointed by the board. The investigation shall be informal but thorough. All interested persons, including the complainant and the person against whom the complaint is lodged, will be afforded an opportunity to submit written or oral evidence relevant to the complaint.

- A written determination of the complaint's validity and a description of the resolution shall be issued by the investigator, and a copy forwarded to the complainant no later than 30 days after the filing of the complaint.

  ◊ If the investigation results in a recommendation that a student be suspended or expelled, procedures outlined in board policy and state law governing student suspension and expulsion will be followed.

  ◊ If the investigation results in a recommendation that an employee be suspended without pay or terminated, procedures outlined in board policy, the negotiated agreement or state law will be followed.

- Records relating to complaints filed and their resolution shall be forwarded to and maintained in a confidential manner by the district compliance coordinator.
• The complainant may appeal the determination of the complaint. Appeals shall be heard by the district compliance coordinator, a hearing officer appointed by the board, or by the board itself as determined by the board. The request to appeal the resolution shall be made within 20 days after the date of the written resolution of the complaint at the lower level. The appeal officer shall review the evidence gathered by the investigator and the investigator’s report, and shall afford the complainant and the person against whom the complaint is filed an opportunity to submit further evidence, orally or in writing, within 10 days after the appeal is filed. The appeal officer will issue a written determination of the complaint’s validity and a description of its resolution within 30 days after the appeal is filed.

• If discrimination or harassment has occurred, the district will take prompt, remedial action to prevent its reoccurrence. The district prohibits retaliation or discrimination against any person for opposing discrimination, including harassment; for participating in the complaint process; or making a complaint, testifying, assisting, or participating in any investigation, proceeding, or hearing.
